2024-25	CLASS XII	SSVPS Dr. P. R. Ghogrey Science College, Dhule	76%
2022-23	CLASS X	Kendriya Vidyalaya, Dhule	85%
PROFESSIONAL EXPERIENCE			
INHAUS Coffee		Co-Founder	Jun 2026 - July 2026
Growth	- Spearheaded launch of a D2C coffee concentrate brand from 0 to 1, generating ₹65k+ in revenue via online and offline channels. - Built outbound GTM strategy reaching 1,500+ prospects across four channels, converting 32% of trials into recurring customers. - Automated lifecycle email campaigns for 5,000+ leads, generating ₹9,500+ in attributed revenue through targeted outreach.		
Inventive AI		Growth Marketing Intern	Jun 2025 - Aug 2025
Strategy	- Conducted competitive analysis across 12 platforms, benchmarking pricing, features, and positioning to refine product strategy. - Synthesized insights from 800+ G2 & Capterra reviews to identify feature gaps, user pain points and competitive differentiators. - Diagnosed a 40% CAC inefficiency, designing 3 persona-specific lifecycle campaigns that improved conversion rates by 15%.		
Younity.in		Business Development Intern	May 2025 - Jun 2025
Sales & GTM	- Converted 35+ enrollments through 120+ sales pitches, generating ₹10,725 in direct program revenue across multiple cohorts. - Reduced lead drop-offs by 22% through personalized follow-ups and objection handling, accelerating enrollment conversions. - Recognized as Top Intern of the Month, Top Communicator, and Best Decision Maker for sales performance and judgment.		
Zupper		UI/UX Designer Intern	Sep 2024 - Nov 2024
UI/UX	- Designed 45+ screens across onboarding, marketplace, auctions, Store+, and BNPL financing as the platform's first design hire. - Designed role-based onboarding for 3 user types, reducing onboarding steps by 30% through targeted personalization. - Benchmarked 5 competing B2B platforms to inform auction and checkout design, delivered to engineering within 3 months.		
ACADEMIC & CO-CURRICULAR PROJECTS			
MedAgent AI	- Designed a POC-to-contract sales framework for AI healthcare agents, using a 30-day proof gate to de-risk a ₹12L/month deal. - Built a COO/CIO objection-handling framework across 5 objections, targeting 90%+ contact within 48 hrs across 6 hospitals.		
Vantage AI	- Designed a proof-first GTM strategy for AI adoption across 3 manufacturing ICPs, using 90-day pilots to de-risk adoption. - Architected a 4-stage marketing funnel and ₹1.5L/month budget with KPIs, targeting 40 calls and 8 pilots in 6 months.		
AI GreenScan	- Won 1st among 8 teams by leading product strategy for an AI app classifying 20+ materials with eco-friendly recommendations. - Architected a roadmap with a 10K-image dataset, 20+ material classes and AI recommendation engine for sustainable decisions		
Porter Case	- Identified oversupply across a 38K-driver marketplace, proposing a strategy to improve 90-day retention from 42% to 60%. - Designed an ML-driven demand positioning strategy to increase driver earnings by 41% and acceptance rates from 66% to 88%.		
Zomato Case	- Diagnosed adoption barriers via 48 user surveys and 4 interviews, isolating review friction as a key adoption barrier. - Segmented 17M monthly users into 3+ order cohorts, identifying the highest-LTV segment for targeted retention.		
Risk Modeling	Analyzed risk spread across 4 Indian banks using matrix math in Python, identifying potential systemic instability ($\lambda > 1$). - Built a 4×4 network model simulating cascading stress propagation through interconnected financial institutions under crises.		
LIVE PROJECTS			
FounderOS	- Engineered FounderOS to automate reporting across 55+ orders, integrating Shopify and Razorpay for seamless operations. - Developed 6 AI workflows analyzing 28+ business metrics to identify early growth opportunities and operational risks.		
AI Analyst	- Developed an AI system that processed 10,000+ feedback records using embeddings and vector search to spot pain points. - Built a scoring engine and RAG based Q&A tool that auto-generates product requirement docs and metrics across 6 dashboards.		
Hackathon'25	- Built an AI wedding planner in a 24-hour MESA Hackathon, matching couples with 100+ venues and vendors intelligently. - Designed an AI recommendation engine using 10+ signals across 500+ vendor profiles with automated booking notifications.		
POSITIONS OF RESPONSIBILITY			
IITJ Club	- Engineered anonymous feedback platform using Python (Pandas, NLTK) to analyze 120+ responses and identify key concerns. - Reduced counseling wait times by 67% (12→4 days) by prioritizing cases and connecting 18 students with timely support.		
EXTRACURRICULAR ACHIEVEMENTS			
Competitions	IIT Bombay – Achieved Top 3 Finalist Position among 250+ participants in Bid-n-Build & Ace the Case, E-Summit'25. MESA Mavericks 2025 Finalist: Top 10 teams out of 400+ teams in the MESA Mavericks 2025 business case competition. - Represented Kendriya Vidyalaya Dhule in competitive chess for 4+ years across interschool and national tournaments in 8 states.		
TECHNICAL SKILLS			
Tools	Data & Analytics: Python (Pandas, NumPy), SQL, Excel, Power BI, Mixpanel, GA4 AI & Automation : Claude Code, Zapier, Cursor, RAG, Vector Search, n8n Growth & Dev : Google Ads, Meta Ads, SEMrush, Figma, GitHub, Postman, Shopify, Webflow		
Institute of Venture Building
